

Good morning,

We hope this email finds you well. As part of our ongoing commitment to provide you with the best products and services, whilst maintaining costs, we are excited to announce changes to our pack sizes and product codes for all PREP items. These changes are designed to enhance your purchasing experience and improve product ordering, handling, storage and crucially our production.

To mitigate increasing production costs, we have updated our prep products pack sizes. Creating consistent pack sizes by product whilst retaining a large degree of flexibility we aim to absorb increasing labour costs. Detailed information about the new pack sizes and codes are included in the attached spreadsheet.

When placing orders, please refer to the new product codes starting from 13/08/2024. Our customer service team is ready to assist you with any questions or concerns you may have regarding these changes.

We greatly appreciate your understanding and cooperation during this transition.

Description	Existing Code	New Codes and Pack Sizes						
		Each	1kg	2kg	2.5kg	4kg	5kg	10kg
